

### Dehydrated Soy Sauce Powder

SeeWoo, the largest Oriental food supplier and importer in Europe, believe they now have an answer to the ever growing problem for food manufacturers with the introduction of P.R.B. **Dehydrated Soy Sauce Powder**.

This very popular ingredient has been used for thousands of years, and as many people in Asia will tell you, Soy Sauce is a great way of making an ordinary dish truly delicious.

Soy sauce has been seen as a great way to give flavour to ready meals and bakery goods whilst enabling the producer to develop products whilst reducing the overall level of salt within the product.

Pearl River Bridge – the largest exporter of Soy sauce to the world from China, manufactures Soy Sauce using a natural fermentation process and can now offer this in a dehydrated format making it easy to store and very simple to use.

The Dehydrated Soy Sauce Powder is available in **Dark, Light** and **Japanese** versions as well as dehydrated **Rice Vinegar**.

Dehydrated Soy Sauce will be exclusive to Pearl River Bridge and distributed by SeeWoo Foods Ltd. Restaurants will be able to order the product by contacting SeeWoo directly.
